Swamp There is a ruined gazebo right near where you enter the swamp, with a Spirit Font concealed inside.. Jong at the end of the path that leads from the beach Dawn Star speaks to her concerning her deceased son.. Incidental I almost despair of having to repeat this essential advice, but here goes once again: save the game at every opportunity where you get a breather.. The majesty of the Sun Dynasty has guided our people for generations, preserving our prosperity throughout the ages.. No matter which conversation choice you pick afterwards, you don't seem to gain or lose anything from this encounter.. Save the game at the blacksmith's and try each of them (sword and staff) before making your decision.. You can do this as many times as you wish for more XP and silver, but really (Closed Fist) Destroy the altar.. You never have to choose between which transformation styles you get, but you will have to spend your xp wisely.

) Oddly, the Jade Golem is weakest to, well, groups of Jade Golem's strength comes from being invulnerable to all unarmed styles, status effects and most advanced attacks.. Here you get to choose between ice and fire and you can save again so you can try them out before you decide.. To access your inventory, go to your Journal screen, then use the 'X' button to examine these Plot Items in detail.. Though the character development and puzzle elements are less rich than in your standard PC fare, the story, pacing, cinematic effects, and dialogue are otherwise excellent.. Except in this case you gain the attacks and special qualities of the form you're taking.. For instance, adding 3 to your Chi when you already have 160 points worth results in a mere 2% gain.. Then you can use the Navigate button to highlight the various points of interest If you head for the gazebo in the west and speak to Wen, you get the opportunity to spar with him as well.. Advance into the cave, and read Master Li's instructions on the gate, which then opens.. You can now read Master Li's inscription, and the gate opens to allow you access to the next part of the caves.

Once you have finished exploring the spirit cave, enter the portal to return to Master Li.. You get 25 silver worth of immediate gratification, but the statue is destroyed and you lose the figurines.. Again, the martial style is Legendary Strike Furious Ming Character Type: Fast Starting Styles: Thousand Cuts, Heavenly Wave Furious Ming is the male version of the fast

character.. I see myself investing a fair amount of time in this, but I don't want to spend that time rerolling on account of poor decisions if I can at all help it.. When you are ready, approach the gate to the north and select the option hold up the Dragon Amulet.. As a reward you get some silver, and learn the technique Alloyed Body, which adds 5 points each to both your Health and Focus.. Then spirit thief off the last guy standing to heal your chi if you don't have red minister style (red minister drains health and chi from enemies and replenishes your health and chi).. The dual-swords style makes everything but spirit fights from that point on a total joke even at the hard setting.. 5 Kia Min: Ask Old Ming About Herbs - Two Rivers Quests 3 and 4 After you return from the battle on the beach, talk to Kia Min, who is standing next to JingWoo outside MasterLi's house.. But the end of your time at this borderland school draws near Now, experience will replace lessons as you travel beyond the shelter of Two Rivers.. See Quest 2 Quests 1 The Flower of the Fields - 125 XP and 250 silver You come upon some bandits attacking a merchant.. The Way of the Closed Fist: this is the 'evil' way Just think selfishly, and always accept short term gains, damn the consequences.. Remember that though the reach of the Empire stretches far, powerful spirits lurk just beneath the surface, and the threat of chaos is ever present.. She apparently fled to a cave, and Gao went after her Zu says she knows this cave, and it's occupied by ogres and other creatures of ill repute.. This proves to be a little more worthwhile, as you get 32 XP for this endeavour.. At least their strong attack doesn't home Ghost Lords are equally annoying—their attacks are less powerful, but they have ridiculous amounts of health.. They turn into when they're supporting an actual dangerous boss Also, they respawn in most areas you find them in.. You don't get any points for defeating her, but you get a good taste of what's to come! Keep arranging fights with Lin until you can best her most of the time.. At lower difficulties, they avoid being due to having low health On higher difficulties, they have huge amounts of health, making them ridiculously hard to kill, while doing insane amounts of damage, turning every fight against them into a frustrating ordeal.. (Closed Fist) Tell him his concerns are of no interest to you, for Closed Fist points.. Back at the village square, the merchant Fen Do doesn't have anything for purchase right now, so only worth it to strike up a conversation if you feel like some more idle chatter.. Whenever you level up, or use gems, consider keeping a bit of balance between Body, Spirit, and Mind.. You will spend a large part of time in the Jade Empire, well, fighting There are three difficulty levels:.. Now it appears that the statue is looking for a green figurine? Well, not exactly Place the blue figurine on the altar, followed by the yellow one.. Fire does more damage, ice freezes people solid for significant amounts of time I went with ice all the way since you can freeze any enemy type vulnerable to magic and then switch back a heavy damage fighting style and break them.. Easily dispatched Keep heading west through the gate A Spirit Font and Focus Shrine are here should you need them.. Combine that with a slowing status effect and most enemies simply cease to be problems on their own.. By speaking to Sagacious Zu you can convince him to help you, though he is quite reluctant.. Drains chi too fast, imho Most importantly, relatively speaking, don't overinvest in support styles.. 9 A Master's Teachings: Exit the Spirit Cave - return to the real world The mysterious spirit has created a portal behind you.. All techniques are permanently on, and all of them are helpful Gems are a matter of selecting the ones which give you the best effects.. Head for Two Rivers then, and as soon as you enter the village you learn that Gao went by here dragging a sack, and that he killed the unfortunate student Si Pat who foolishly tried to question him.. Max damage and speed for one martial and weapon style of your choice Chi strike (every hit does more damage but drains chi) is a matter of choice and your attributes.. This poultice will properly heal Kia Min 4 Kia Min: Acquire a Bearded Tongue Grass Poultice - Quest 5.. Your first support style is going to be complete trash, it just slows enemies Later support styles will actually freeze them completely and be incredibly powerful, you can destroy the last boss in the game and many others just by keeping them in paralysis or shock the whole time.. You have now produced a green combination, and the statue responds by changing the required colour to orange.. QFT But really, Jade Empire isn't really the kind of game where min-maxing is necessary, or even makes much sense.. So now we enter the swamp See section on Swamp below 7 The Burning Town: Find Survivors - leave the village forever.. I personally like the later styles better, red minister and iron golem have very nice attacks and immunities.. Anyway Old Ming informs you that a Red Silk Grass Poultice is necessary to properly heal Kia Min.. The great thing is, you can change the difficulty level prior to any especially hard battle, and then change back again to your default level of difficulty.. Then pick which one you want My recommendation for starting styles is legendary strike or tiger claw.. It makes it incredibly easy to curbstomp countless battles against multiple foes in succession without ever taking a hit.. On top of that, if there are enough mooks, they could quite easily outlast your chi reservoir.. My recommendation is to reroll characters at the beginning and try every starting style until you get the one you want.. In this guide, quests are documented in the area that you receive them in The area you eventually complete them in may be further afield.. 2 An Unfortunate Debt - 40 XP Speak to the villager at the end of the path near the beach.. Finally, head east to the beach, and engage in your first major battle You even get to fight some spirits (also remember that weapon styles are useless against spirits).. Once you locate the camp, take out Gao's men, only to find out from the lone survivor that Dawn Star is no longer there.. Remove the yellow figurine, and place the blue figurine on the altar You have just learned the technique called Gaze of the Lion, which adds 2 points to both your Health and Focus.. There is a Spirit Font and Focus Shrine close to here, should you require a top-up of either.. I'll also repeat bob's advice, one big pitfall is spreading yourself too thin Spend xp on the styles you actually use.. Transformation styles drain your chi while they're even on, but at least attacking doesn't cost you, just make sure you use your time wisely and go on the offensive when you're transformed.. Here are the six characters and their starting compositions You can accept each character as

is, or customise them to suit your needs.. Master Li is none other than a brother of the Emperor! He apparently rescued you as a baby after he rebelled against his brother, who wrongfully killed your people.. Remember that you can pause combat at anytime with the Back button should you need to gather your thoughts.. We only know the actions of the Emperor and Sun Li after the drought, which include massacring the Spirit Monks as well as enslaving the Water Dragon but some fans believe their behavior may have been bad beforehand and resulted in the gods sending the drought to punish them.. : Lost Spirits attack in groups (that tend to be spread out), have homing ranged attacks that drain both your HP and Chi, and give ridiculously paltry EXP.. Some of the last missions with hordes of enemies turn into beating up a room full of exploding statues.. Note that I'm not looking to powergame at this point, just to avoid nerfing myself by making uninformed or ill-informed choices.. You can buy a Bearded Tongue Grass Poultice for less, but that will not properly heal her and she may become permanently injured as a result.. Later on you'll visit a blacksmith and get your first weapon style and then get to try it out.. 7 A Master's Teachings: Learn More from Master Li - learn about your history and destiny, and obtain Quest 8.. Paralyzing Palm Hit your enemy a few times, go into focus mode, switch to a damaging style, go to town.. There are one or two fighting styles that are only available to followers of each path, but again, these styles are very similar.. My girlfriend went balanced and did just fine too There are two more sets of styles which I'll discuss, support styles and transformation styles.. The gate guard (Yung) has now recovered Talk to him then, and you get Two Rivers Quest 6.. See Quest 8 8 A Master's Teachings: Explore the Spirit Cave - Dragon Amulet and a magic style of your choice.. You engage in a fight with quite a few of Gao's men this time, and finally catch up with Dawn Star as she attends to a dying Jing Woo.. Then talk to Kia Min and let her know what you did to her, for yet more Closed Fist points.. School You meet Jing Woo in the sparring ring Agree to fight him This is your first bit of training, and you have to follow the instructions given. d70b09c2d4
